

Dates for EPS & EPP Training

In Erlenbach's experience center, Lautert

This workshop is dealing with the economical EPS and EPP manufacturing, cost- and energy optimization and production management.

Profit: This workshop shows ways to improve the cost structure, optimization and transparency of the processes as well as possibilities for a more economical mould production. All this increases productivity and efficiency.

Target group: From machine operator to production supervisor

Participants: Min. 3, max. 6 persons

Location: Training room and laboratory of Erlenbach, Lautert

Participation fee: Net 1.470 EUR/person incl. snack, soft drinks and training documents, an evening event is also included.

Terms of payment: 100% after receipt of invoice, net.

Overnight stay: The costs for the overnight stay are not included in the participation fee, but we gladly organize your accommodation.
